MADE IN ITALY

WASTE

Waste Sorting Modular System

designed by CARLO COLOMBO ARCHITECT

Carlo Colombo graduated in architecture from the Politecnico di Milano in 1993 and immediately started to dedicate himself to the design and marketing of industrial products, graphics, and set-ups. He has collaborated with the best brands of Italian design such as Flexform, Poliform, Giorgetti, Cappellini, Antoni Lupi, Artemide, Flou, Bentley Home, Bugatti Home, Trussardi Casa, Elie Saab Maison, Olivari, Faber, Sahrai, Penta Light, to name a few.

Since 2011 he has been teaching design at the University of Beijing. In 2013 he founded A++ architecture studio with Paolo Colombo in Lugano, which deals with interiors and large-scale projects all over the world, with studios in Lugano, Zurich, New York, Miami, and Dubai.

His projects have been exhibited in Paris, at the Weserburg Museum of Modern Art in Bremen (1995), at the Museum of Decorative Arts in Cologne (1996), at the Milan Triennale (2016), and MARCA, Museum of the Arts of Catanzaro (2017).

The WASTE project originates from the belief that technology and design must meet the challenge of sustainability, so that aesthetically beautiful and elegant products have to be ecological, as well as functional.

Graphics and colors help to separate types of waste.

The elegant, minimalist and modern design of WASTEE allows placement in any environment: ideal to create recycling islands in the office, in contemporary commercial areas and public spaces.

Perfect for properly disposing, recycling and organizing separate waste collection.

When technology and design meet sustainability:

- The clear and bright WASTEE bins have lids with coloured profiles designed to make the recycling experience pleasant and enjoyable,
- Multiple WASTEE bins combined together can be considered as furnishing elements, to be shown and not hidden, they stand out without invading the scene.

- **Available in different models**, graphics and colours which helps to quickly identify how to separate the different types of waste according to international standards.
- **Space-saving modules:** two circular areas located on each side include a magnet for easy joining of bins to each other.
- **Durable container:** made from robust materials, 100% recyclable.
- **Easy to clean:** the lids and outer shell have an attractive glossy ivory-white finish.
- **Quick emptying:** lift the opening of the lid to empty.
- **Capacity:** 60 litres.
- **Optional Liners Available:** Made from 97% Recycled content.
- **Dimensions** (H x W x D - mm): 705 x 340 x 345
- **Weight:** 7kg.

Two round areas located on each side include a magnet for easy joining of more bins to each other.

Quick and easy replacement of the bag.

Model	Lid Colour	Aperture	Waste Stream
Wastee Black	Black	Single Circular	General Waste
Wastee Green	Lime Green	Single Circular	Mixed Recycling
Wastee Blue	Blue	Single Oval	Paper
Wastee Grey	Grey	Double Circular	Cans
Wastee Red	Red	Double Circular	Plastics

Recommended: Heavy-duty recycling bin liners, made from 97% recycled content. We can offer colour coded to a waste stream or clear.
